I rarely use technology to access and manage information, or to present ideas and information effectively.	I often use technology to access and manage information, and to present ideas and information effectively.	I usually use technology to access and manage information, and to present ideas and information effectively.

It is anticipated that students entering Cochise College will fall into the 'Lacking' or 'Emerging' categories on many of these components. As they progress in their academic careers, they should be moving continuously across the rubric so that by graduation, they are primarily in the 'Proficient' and 'Exceptional' categories.
